Purpose of Inspection:
Routine inspection.

Inspection Summary:

This site was approved in December of 2010. At the time of this inspection, mining activities have not begun. There is no disturbance. There were no issues noted at this site.

Photos were taken to document site conditions.

Conclusions and Recommendations:

Subsequent to this inspection, the operator has requested that the surety for this site be released and the file be closed. They no longer plan to operate in this area for the foreseeable future. Since there never was any mining related disturbance for this project, it is recommended we approve the requested closure.
